# COVID - 19 POLICY

---

As soon as the UK Government issued guidance to the general public and employers over the necessary steps to prevent Covid-19 contagion, Kalas adopted in full every element of the advice and instruction given.

We continue to do so. Any job that can be done from home is being done from home and people who cannot perform their job at home are coming to work.

From the start we have worked closely with our employees to ensure all our employees are working safely, particularly with respect to social distancing rules and PPE.

We are extremely grateful to all of our staff for their support at this challenging time. These measures are in constant review and will be revised if necessary to fall in line with any new government guidelines.

In addition, we are doing everything we can to maintain our customer service levels, and are contactable via phone or email as normal.
